(Erika - Typewriter has sounds of joy in her voice because finally back to homeland. And sounds of sad, because her papa Robotron Kombinat is dead) - (EUREKAMONT)

So, this is Dresden. Here Ostmodern still ~~don't~~ <sup>DONT</sup> give up in front of Re-PostModern

1) ~~And~~ <sup>Best</sup> always fresh, bread (Fladenbrot for 1€) in the whole Übigau area is made in a Turkish bakery "ÖZY".

<sup>HAS</sup> Kolxoz arrived to the banks of the Elbe, <sup>IN</sup> (to the former Casa de Kultura, through ~~through~~ train system: 6 bags, 6 changes.

Spoleto - Falconara - Bologna - München - Nürnberg - Leipzig - Dresden

Through Pyrenees to the breeze of the Italo-Mediterranean East Coast.

Through Alps (Noroc Garibaldi, noroc Suvorov !): Day - Night; South - Nord;

Illusion of Chaos - Illusion of Order; Optimism - Dramatism;

Best Coffee - Best Sausages.

**UPGRADED!**

WE LOST 3 OF 4 WHEELS, AND BOTH CARRY STRAPS.

"Upgrade Red-White-Blue migrant bag" catastrophe, missed train, night at station.

Deep morning comatosis bring Kolxoz instead of Express to the Regional Bahn:

40 villages journey, Czech-Pridnestrovian dreams inside & German dreams outside

In total, 30+ hours on the <sup>RAIL</sup> road: immigraniada with Casa Presci and other shit.

"You can take man out of the East, but you cant take East out of man"

Now, here in Dresden, Kolxoz make Kombinat from sea shipping container.

Letters **СЛАВА ТРУДУ** (written in Cyrillic) have already appeared.

in the form of a wooden typography - Noroc Constructivists: **NOROC WOOD!**

This sign should be installed on the roof top of Kombinat and shines, probably. <sup>RED</sup>

Soon should start rain, also probably.

This is Sunday in Kolxoz.

Kolxoz is Utopia and Dystopia.

Gruess Gott, Servus, Hallo, Zdravo) ЗДРАВОВО!

Document from  
V J E N. N. A

This is Vienna. Capital which still attracts people from <sup>MOSTLY BY</sup> all over ~~the~~ Austro-Hungarian Empire and from other places. <sup>MAGNETISM OF</sup> Here cloudy, freshy, and autumn jackets are already in use. <sup>CASH.</sup> Although ~~there are~~ still five days before official autumn.

Kolxoz <sup>was</sup> teleported from the banks of the Nistru known as Dniester, <sup>IT IS</sup> to the banks of the Ister known as Danube.

Every morning Kolxoz <sup>DOES</sup> goes up along the water that goes down <sup>the</sup> concrete channel to the Danube.

Goes from the monument of the Soviet soldier with a gold helmet <sup>EN</sup> and a gold shield in the form of USSR emblem.

Past by Karlskirche aka ST. Charles Church aka "Encyclopedia of Architecture" whose dome is a reploa of the St. Peter Basilica from Vatican. And at the entrance there are two columns - similar to the Troya 'n column in Rome. Only the tops of these columns look like minarets around which Chinese golden dragons lie.

Kolxoz goes through the Margaretten district (quiet version of Babylon) to a place called "Kitchen". This is a former Irish pub. This is the brother of the Chishinau disco-bar "Alcatraz" (where Kolxoz worked once and where nothing already exist, only Bank. See Turbocapitalism).

СЛОБАДА, 38-39 PAGE

In "Kitchen", like everywhere, Kolxoz cleaning place, making coffee, meeting with people who cook food together and after eating this food together. And of course here "A Pogovorit" is also one of main fuel for togetherness. СЛОБАДА, PAGE 4-5

Like in all Bazochka's in "Kitchen" Kolxoz activated the mobile Casa Presel and print Samizdat. In Vienna another Erica Typewriter was suddenly founded. Only mechanical one. Old fashioned Mother of Erica Electronic which Kolxoz left in Dresden.

In the "Kitchen", Mama-Erica's voice, which sounds like a machine gun, is mixed with the noise from the the work of huge machines that are drilling ground right outside the window. A new metro line (U-Bahn-Bau) is being build in Margaretten.

But if true, tiredness from intensivity of this summer melting all into such hallucinogenic hypotheses:

"We go from Erioa to Other Erica from daughter to Mama.

"We go from Trajan's Columns father to sons-twins.

We see Vatikan and again watch his cloned part, And Monuments from WWII in every village and city along Nistru metamorphosing into the Golden Soviet soldier in Vienna!

Maybe we go fatalistic and in multiplications? "

OUR INTUITION WHISPER: TIME TO DISSAPPEAR IN WHAT SOME CALL EAST!

#### NOTES

25.8.2021 SERGEY VIKTOROVICH LAVROV VISITED THE MONUMENT, AND GAVE SPEECH TO KOLXOZ AND CITIZENS OF VIENNA.

28.8.2021 KOLXOZ CELEBRATED HUMANISTIC BUREACRATISM BY EATING ZAKUSKY AND TOASTING WITH KVINT.

Dear comrades, bureaucrats, partisans, victims and beneficiaries of Mail-Carpet\_Bombing.

Here again govorit Kishinev - "Paradise, everyone want to run away from".

After a big summer 'Nomads -Gastrabeller Inspection' pockets and 'Ghana Must Go' bags full of documents from lands South and North of the Alps, from West and East of the Danube (and further-more East than Dniester).

AT THE END OF THE ODYSSEY, KOLXOZ FOUND HIMSELF INSIDE THE ZEMSTVA - A FAKE MUSEUM WHICH WAS STUCK IN ONE OF THE CRACKS OF MOLDAVIAN GLINA.

In this fragile lacuna was established the Mother Earth Library - place where not only people, but first of all books and Samisdat publications from different corners of planet meet and interact with each other.

UNDER  
And now, after a month of experiments, whenever the table heaters purr like kind animals, AND TRYING the security guys, like angry dogs, are trying to kick out Kolxoz from the colonized space.

And already old Listovkas from past events fall from walls like leaves from trees - this is Listopad, this is last evening in Mother Earth.

In the light(or darkness) of this incidents, Kolxoz again realizes that here in the beginning of any activation, it is necessary to keep in mind the possibility of an unexpected end.

You should remember about ephemerality about the ephemerality of symbiosis
